Compsci grad pursuing his culinary passion

---

TO WHOM IT MAY CONCERN,

My name is - Abdullah, I was born and raised in Dubai to an immigrant family. I came to the UK to get a university degree in computer science. Over three years, I had fallen in love with the culinary world. My first full-time job outside of university was at a Michelin-starred restaurant in London, where I worked every day to get better than I was yesterday. In two years, I have garnered enough knowledge and work ethic to be considered for junior sous positions.

Due to the sudden changes to the UK Sponsorship visa, I have to move, I have worked too hard and sacrificed too much to end my culinary journey here. I am a completely independent individual with no family support or connection.

I understand the risks for a business to hire a foreign chef with minimum experience, but I am sure my references would put your mind at ease. I am not ready to give up on my dreams and passion yet. If you are looking for a hard-working and dedicated chef, who loves to take on new challenges and responsibilities, I am your guy. I am available via email anytime, Calls can be arranged as well.

SINCERELY,

-ABDULLAH
